Revisa desde la consola de cloudwatch todas las métricas asociadas a la instancia coloca por lo menos 3 donde se vea el id de la instancia

En cloud Trail ingresa y busca el evento de creación de una de las instancias, pone el JSON e identifica desde donde se creó la instancia,

La instancia se creo desde "userAgent": "autoscaling.amazonaws.com"

The screenshot shows the AWS CloudTrail console with the 'Event record info' tab selected. The JSON view displays the details of an event. The 'userAgent' field is highlighted in red, indicating the source of the event: 'autoscaling.amazonaws.com'.
